Power Output is Conducted. Professional installation is required, and may only be use in point-to-point applications. Only the antenna documented in this filing and installed in the manner specified may be used with this device. The antennas must be installed to provide a separation distance of at least 20cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installer must be provided with operating instructions for satisfying RF exposure compliance requirements.

38: Certain antennas used with this equipment require a minimum cable length, or have output power limitations as documented in the application.
